NATURE LOO EXCELET

The Excelet range is designed to provide toilet facilities for low use situations at a budget price. Its attractive appearance puts it a cut above the N-L Compact, whilst its simplicity of design ensures that its cost remains lower than that of Sun-Mar's Excel range.

Unlike most composting toilets, the Excelet sits on the toilet room floor and requires no space beneath it. As such, it suits people who are unable to install a composting chamber beneath their bathroom floor due to their home being built on a slab. The Excelet is shaped to resemble a modern flushing toilet, although it is larger with the seat 10 cm higher than standard seats. The Excelet uses the reliable process of batch composting to produce a safe compost.

There are 2 versions; the Excelet and the Excelet NE.

EXCELET - 4 PACKAGE INCLUDES:

The Excelet includes urine separation and a barrier to block any view of the contents of the chamber (required for state approval). The **Excelet is Australian standards AS1546.2 certified**. It is currently approved in NSW and QLD with more approvals to follow.

- 4 x 55 litre composting chambers (minimum of 4 chambers required if seeking council approval. Extra chambers can be added for Approval later).
- Fibreglass shell and matching solid white seat
- Ventilation system including 12 volt fan and transformer
- Easy to follow DIY installation and maintenance manual.

Price: \$2,500 delivered

Capacity: 2-3 person full-time use*

Excelet – 2 (2 x 55lt chambers): \$2,050 1 person full-time use*

Excelet – 3 (3 x 55lt chambers): \$2,275 2-3 person full-time use*

EXCELET NE-2 PACKAGE INCLUDES:

The Excelet NE is the base model without certification and comes with 2 x 55L composting chambers and all the above components except the key approved componentry; manually operated barrier, and urine diverting top (seen in the photo opposite).

Price: \$1,775 delivered

Capacity: 1 person full-time use / 2 part-time use

Excelet – 3 (3 x 55lt chambers): \$2,005 2 person full-time use

Excelet – 4 (4 x 55lt chambers): \$2,250 3 person full-time use

EXCELET OPTIONS:

- Add extra chambers for \$270 each delivered.
- Purchase a 40W Solar system to power the 12v Fan - \$295 delivered

Both Excelets come complete with everything except for the external vent pipe and absorption materials

* Approval for Excelet 4 only is granted for 2 people though capable of managing 3 people's continuous full time use.
